

The price of not fulfilling the right to education is extremely high. How much exactly?

US\$6 trillion

for early school leavers

US\$10 trillion

for children with less than basic skills

Country examples: Social costs of children with less than basic skills

72%

Increase in
the number
of homicides

47%

Increase in the number
of youth not in education,
employment or training

Tajikistan

US\$3.3 billion

for children with less than basic skills

**16% of
forecasted GDP**

Country examples: Social costs of children with less than basic skills

76%

Increase in
the number
of homicides

62%

Increase in the number
of youth not in education,
employment or training

Mexico

US\$310 billion

for children with less than basic skills

**20% of
forecasted GDP**

INVESTING IN QUALITY EDUCATION
IS A COST-EFFECTIVE STRATEGY FOR
ECONOMIC DEVELOPMENT

USD
\$470
BILLION

Annual global gain in labour income
for each percentage point reduction
in children out of school

USD
\$650
BILLION

Annual global gain in labour
income for each percentage
point reduction in children
lacking basic skills

unesco

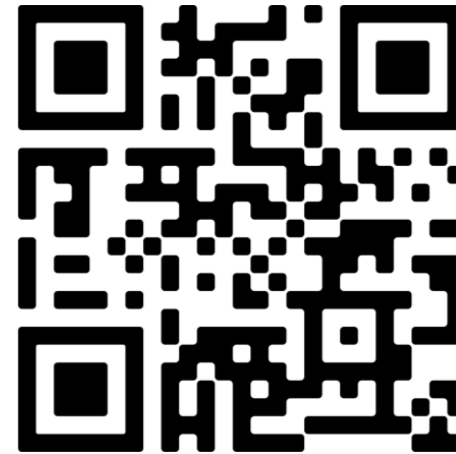

The global private, fiscal and social costs of children and youth not learning

Education
2030
